

**MERCED IRRIGATION DISTRICT
HYDROELECTRIC PROJECT MANAGER**

FLSA Status: Exempt

DEFINITION:

Manager will plan, direct, and administer the operation and maintenance activities of the Project facilities and provide highly technical and responsible staff assistance. The Project Manager is responsible for ensuring the Project is operated and maintained in compliance with all applicable local, state and federal regulations and laws and applicable agreements.

ESSENTIAL FUNCTIONS OF THE POSITION:

- Supervise, discipline and evaluate Project employees in accordance with established District policies, procedures and bargaining unit memorandum of understanding.
- Initiate planning and development of work to be performed to assure the proper operation and maintenance of the Project and current industry standards, practices, and technologies.
- Read and interpret plans and specifications.
- Prepare and administer an annual Project operations and maintenance budget. Monitor and control project expenditures to stay within the approved budget.
- Prepare and administer annual and long term Capital Project budgets.
- Provide active support of the District's hydroelectric Project relicensing efforts, as necessary.
- Coordinate the work of outside consultants and contractors as necessary for Project planning, operations, maintenance, improvements, and compliance.
- Initiate and administer training programs to insure the ongoing proficiency of project employees.
- Perform inspections, tests, and investigations, both routine and extraordinary as dictated by applicable and current best engineering and operating practices.
- Represent the District in matters before regulatory agencies, in the community, and at professional meetings.
- Ensure compliance with all conditions associated with the FERC license and reporting.
- Perform other duties as requested, directed or assigned.

QUALIFICATIONS:

Any combination of experience and education that would prepare the candidate for the duties and responsibilities of the position is acceptable.

Education:

- Bachelor of Science Degree from an accredited college or university with major course work in engineering or a related field.

Experience:

- Eight (8) years of increasingly responsible engineering or related work experience.
- Five (5) years experience in supervising personnel and electrical system operations.
- A combination of increasingly responsible relevant work experience in a supervisory or management role and training and knowledge may substitute for the educational, certification(s) and/or license preferences at the sole discretion and determination of the District.

HYDROELECTRIC PROJECT MANAGER

Ability to:

- Establish and maintain cooperative relationships with both internal and external contacts.
- Communicate clearly and concisely, both orally and in writing
- Prepare technical reports and supervise the maintenance of appropriate filing and record keeping systems.
- Develop and implement goals, objectives and priorities.
- Effectively prioritize a fluctuating workload.
- Work well under pressure and meet continuous deadlines.
- Ensure compliance of Federal and State regulations regarding employee and public safety with all applicable industrial safety regulations, operating bulletins as well as regulations of other agencies that apply to the MID hydroelectric operations.

Knowledge of:

- Operation of personal computers to generate various spreadsheets, correspondence, reports, CADD-generated drawings, electronic mail, and use of the internet.
- Principles and practices of organization, operation and maintenance of hydroelectric production facilities administration, purchasing, budget, forecasting, and personnel management.
- Workplace safety, compliance and training; familiarity with OSHA regulations, and employee safety requirements.
- Rules, regulatory requirements and processes associated with the Federal Energy Regulatory Commission (FERC), Department of Water Resources/Division of Safety of Dams (DSOD), California Department of Water Resources (DWR), California Department of Fish and Game (DFG), State Water Resources Control Board (SWRCB), State Regional Water Quality Control Board (RWQCB), North American Electric Reliability Corporation (NERC) Federal and State Environmental Protection Agencies, United States Fish and Wildlife, NOAA Fisheries, Endangered Species Act, all pertaining to operations, maintenance and relicensing of hydroelectric facilities.

Necessary Special Requirements:

- A valid registration as an Electrical, Civil or Mechanical Engineer in the State of California (preferred).
- Must file a Statement of Economic Interests in compliance with Government Code Section 8100.
- Must complete a two hour Ethics training course every two years in compliance with California AB 1234.
- Must complete two hours of Sexual Harassment training every two years in compliance with California AB 1825.
- A valid California Class C Driver License and the ability to maintain insurability under the District's vehicle insurance program.
- Maintain permanent residence in District provided housing located at the Project, while employed by the District in the capacity of Hydroelectric Project Manager.
- Abide by all District policies, guidelines and rules.

HYDROELECTRIC PROJECT MANAGER

ENVIRONMENTAL FACTORS:

- Exposure to the sun: 10% or less work time spent outside a building and exposed to the sun.
- Irregular or extended work hours: Occasionally required to change working hours or work overtime.
- Work performed in an office environment
